

**SIDNEY CENTRAL SCHOOL DISTRICT
DISTRICT-WIDE SCHOOL SAFETY PLAN
PROJECT SAVE
(Safe Schools Against Violence in Education)
Commissioner’s Regulation 155.17**

INTRODUCTION

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a district-wide school safety plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies. The district-wide plan is responsive to the needs of all schools within the district and is consistent with the more detailed emergency response plans required at the school building level. Districts stand at risk from a wide variety of acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safety Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in each school district and its schools.

The Sidney School District ("District") supports the SAVE Legislation, and intends to facilitate the planning process. The Superintendent of Schools encourages and advocates on-going district-wide cooperation and support of Project SAVE.

SECTION I: GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

A. Purpose

The Sidney District-wide School Safety Plan was developed pursuant to Commissioner’s Regulation 155.17. At the direction of the Sidney District Board of Education, the Superintendent appointed a District-wide School Safety Team and charged it with the development and maintenance of the District-wide School Safety Plan.

B. Identification of School Teams

The District has created a District-wide School Safety Team including the following persons:

Position	Name
Board of Education Representative	Marisa Orezzaoli
Administration Representative	Eben Bullock, Kerrie Johnston, Michael Pavlovich, Lorraine Pourby, Antonio Stenta, Rob Hansen, Megan Rose, Maggie McNamara

C. Concept of Operations

- The District-wide School Safety Plan shall be directly linked to the individual Building-level Emergency Response Plans for each school building. This District-wide School Safety Plan will guide the development and implementation of individual Building-level Emergency Response plan.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the School Emergency Response Team.
- Upon the activation of the School Emergency Response Team, the Superintendent of Schools or his/her designee will be notified and, where appropriate, local emergency officials will also be notified.
- Emergency response actions including Crisis Response may be supplemented by County and State resources through existing protocols.

D. Plan Review and Public Comment

- This plan shall be reviewed and maintained by the District-wide School Safety Team and reviewed on an annual basis on or before July 1 of each year.
- Pursuant to Commissioner's Regulation 155.17 (e) (3), this plan will be made available for public comment 30 days prior to its adoption. The district-wide and building-level plans may be adopted by the School Board only after at least one public hearing that provides for the participation of school personnel, parents, students and any other interested parties. The plan must be formally adopted by the Board of Education.
- While linked to the District-wide School Safety Plan, Building level Emergency Response Plans shall be confidential and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a.
- Full copies of the District-wide School Safety Plan and any amendments will be submitted to the New York State Education Department within 30 days of adoption. Building-level Emergency Response Plans will be supplied to both local and State Police within 30 days of adoption.

SECTION II General Emergency Response Planning

A. Identification of sites of potential emergency

Sidney has established the identification of potential sites and the internal and/or external hazards that may be present in them. These procedures are developed in coordination with the local Emergency Management Office, Fire Department and law enforcement agencies. Appendix 4 of this Plan lists sites and the potential emergencies at each site.

B. Actions in response to an emergency.

Sidney has identified the following general response actions to emergency situations. These actions include school cancellation, early dismissal, evacuation, and sheltering. The Building level Emergency Response Plans include identification of specific procedures for each action depending upon the emergency.

Emergencies include, but are not limited to:

Threats of Violence	Intruder
Hostage/Kidnapping	Explosive/Bomb Threat
Natural/Weather Related	Hazardous Material
Civil Disturbance	Biological
School Bus Accident	Radiological
Gas Leak	Epidemic
Others as determined by the Building-level School Safety Team	

Specific response protocols for Hostage/Kidnapping, Intruder, and Bomb Threats are included in this plan in Appendix 6.

C. District resources and personnel available for use during an emergency.

Sidney has committed the full inventory of its resources to be available for use during an emergency. Utilization of these resources will be in line with the Building Level Emergency Response Plans as deemed appropriate by the Incident Command Team.

Specific personnel and resources available are identified in the Building Level Emergency Response Plans.

D. Procedures to coordinate the use of school district resources during emergencies.

Sidney utilizes the Incident Command System model for emergency actions. For district-wide emergencies the Incident Commander will be Eben Bullock, Superintendent of Schools or his designee. The Incident Commander is authorized to activate such resources and personnel as are appropriate to the incident. The Incident Commander is empowered to render such decisions as may be necessary in keeping with the response actions as identified in the Building Level Emergency Response Plan.

Building-level Incident Command staff are identified in the Building Level Emergency Response Plans.

E. Annual multi-hazard school training for staff and students.

The District will conduct annual training for both staff and students in school safety issues. Training will be coordinated by the Building Level School Safety Teams, and may consist of classroom activities, general assemblies, tabletop exercises, full scale drills or other appropriate actions to increase the awareness and preparedness of staff and students.

Building level training will be coordinated by the Building Level Emergency Response Teams.

Drills and other exercises will be coordinated with local, county and state emergency responders and preparedness officials. Existing Plans may be revised as a result of these drills.

Appendix 3 includes specific training modules at the various District sites.

F. Hall Monitors and other school safety personnel

The Sidney Central School District has staff members monitor the halls in between classes. Administration and staff also monitor the halls as needed.

G. Implementation of School Security

The following building security measures are taken at Sidney:

- Signs are posted indicating that parents and visitors must report to the main office/desk to sign in
- Staff are trained to challenge suspicious persons encountered in buildings
- Building entrance security is maintained throughout the day
- The services of canines to randomly search for drugs and/or weapons is available as needed.

SECTION III: RESPONDING TO THREATS AND ACTS OF VIOLENCE

A. Policies and procedures for responding to implied or direct threats of violence or acts of violence by students, teachers, other school personnel and visitors to the school

The District has enacted policies and procedures dealing with violence. These policies and procedures deal with the safety of the school community as well as the range of discipline of those making the threat or committing the act of violence and are included herein as Appendix 2 of this document and further detailed in the Sidney Central School District Code of Conduct. During development of the Code of Conduct, the committee considered adoption of a zero tolerance policy toward acts of school violence and decided that such a policy was not appropriate at this time.

B. Response protocols.

The District recognizes that appropriate response to emergencies varies greatly depending upon the actual threat or act as well as the magnitude of such emergency. The Building Level Emergency Response Plans detail the appropriate response to such emergencies. These plans were developed with, but not restricted to, the following protocols:

- Identification of decision makers
- Plans to safeguard students and staff
- Procedures for transportation, if necessary
- Procedures to notify parents
- Procedures to notify media
- Debriefing procedures

C. Policies and procedures for contacting appropriate law enforcement officials in the event of a violent incident

The District recognizes the importance of law enforcement involvement as quickly as possible at the outset of violent incidents. Law enforcement officials will be contacted at the direction of the Incident Commander in line with the Building Level Emergency Response Plan, and will be requested based upon the “closest responsible agency” concept to ensure that the response to the incident is as timely as possible. Law enforcement agencies are contacted by dialing 911.

D. Policies and procedures to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal

In the event of a violent incident or early dismissal, the District will contact appropriate adjacent school districts, parents, guardians or persons in parental relation to the students via telephone contact, media release, or other appropriate means. Conditions requiring such notification are outlined in the Building-level Emergency Response Plans.

E. Protective Action Options

The District recognizes that appropriate response to emergencies varies greatly. School cancellation, early dismissal, evacuation and sheltering are the protective action options that the Building-Level School Safety Teams, in cooperation with local emergency responders, have included in the Building-Level Emergency Response Plans. Appendix 5 describes the Protective Action Options.

SECTION IV: COMMUNICATION WITH OTHERS

A. Obtaining assistance during emergencies from emergency services organizations and local government agencies.

During emergencies, local government agencies, including emergency services, can be obtained via the local emergency management office or through the local emergency communication center. Both public agencies are contacted by dialing "911". The Incident Commander will authorize the procurement of these agencies.

B. Procedures for obtaining advice and assistance from local government officials

The Incident Commander will contact the Delaware County Emergency Services Office in accordance with Article 2-B of the Executive Law-Disaster Preparedness for advice and assistance as required during an emergency.

C. A system for informing all educational agencies within a school district of a disaster

The District will notify any appropriate educational agencies within its boundaries as well as adjacent to its boundaries in the case of a disaster that would affect any of these agencies. The Incident Commander will determine the extent of notification and delegate its delivery. Notification will be made via FAX, email or telephone. Appendix 7 lists names and contact numbers of educational agencies within the Sidney Central School District.

D. The Sidney Central School will maintain certain information about each educational agency located in the school district

At a minimum, each Building-Level Emergency Response Plan will include the following information:

- School population
- Number of staff,
- Transportation needs, and
- Telephone numbers of key officials of each such educational agency

This information is included in the individual Building-Level Emergency Response Plans.

SECTION V: PREVENTION AND INTERVENTION STRATEGIES

A. Policies and procedures for the dissemination of informative materials

The District is committed to the use of the interpersonal violence prevention education package for grades pre-kindergarten through twelve, when available and where applicable.

Pamphlets and violence prevention information is distributed to staff members through email, interschool mail, and payroll stuffers at various times during the year. Violence prevention brochures are made available to parents during open houses. Students are offered materials in interpersonal violence prevention as a part of the regular course of study in various curricular areas and at assemblies during the school year.

B. Prevention and intervention strategies.

The Sidney Central School continues to develop and investigate various strategies regarding violence prevention and intervention as addressed in our Professional Development Plan. Such strategies include annual training in violence prevention, intervention, and identification techniques at Superintendent Conference Days, Project SAVE training for all staff members, and other topics as may be defined during the year.

C. Strategies for improving communication among students, between students and staff and reporting of potentially violent incidents.

We recognize that communication is a vital key in violence prevention and intervention in schools. As such, Sidney continues to develop and investigate various strategies regarding violence prevention and intervention. To this end, the District maintains or is exploring programs in the following areas:

- Non-violent conflict resolution training programs
- Peer mediation and youth courts
- Creating a forum or designating a mentor for students concerned with bullying or violence
- Youth run programs
- Establishing anonymous reporting mechanisms for school violence
- Others based on identified need

SECTION VI: RECOVERY

A. District support for buildings

All the district's manpower and resources will be available to one of our sites that have endured an emergency. Mental health counseling, building security and restoration will be items of primary focus. Response and recovery will be a District goal.

Besides building security and restoration, the strategies will also include damage assessment, relocation and continuation of the educational process. A post-incident crisis response critique, the notes from the Incident Command Team, and lessons learned, will be assessed. Plans to mitigate the likelihood of occurrence or impact, if the incident does occur again, will be reviewed. If possible, efforts will be made to improve district facilities resulting in them being more resistant to suffering similar or worse damage.

B. Disaster Mental Health Services

The Sidney Central School District understands how an emergency can have a major, traumatic effect on the well-being of students, staff, and the community at large. The district will coordinate resources with Delaware County Mental Health Services and the Post-Incident Crisis Response Team to help mitigate this impact.

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT

The Board of Education is committed to providing an environment free from discrimination and harassment. Accordingly, the Board prohibits discrimination and harassment on the basis of race, color, religion, national origin, sex, sexual orientation, age, disability or other legally protected category. Such actions and occurrences are prohibited regardless of whether they take place on School District premises or at school-sponsored events, programs, or activities held at other locations.

Prohibited Conduct

Determinations as to whether conduct or occurrences constitute discrimination or harassment for the purposes of this Policy and its implementing Administrative Regulations will be made consistent with applicable law. Such determinations may depend upon a number of factors, including but not limited to: the particular conduct or occurrence at issue, the ages of the parties involved, the context in which the

conduct or occurrence takes place, the relationship of the parties to one another, the category or characteristic that is alleged to have been the basis for the action or occurrence, and other considerations as are necessary and consistent with law. The characterizations and examples below are intended to serve as a general guide for individuals in determining whether to file a complaint of discrimination or harassment, and should not be construed to add or limit the rights individuals and entities possess as a matter of law.

Discrimination is, generally, the practice of conferring or denying privileges on the basis of membership in a legally protected class. Discriminatory actions may include, but are not limited to: refusing to promote or hire an individual on the basis of his/her membership in a protected class, denying an individual access to facilities or educational benefits on the basis of his/her membership in a protected class, or impermissibly instituting policies or practices that disproportionately and adversely impact members of a protected class.

Harassment generally consists of subjecting an individual, on the basis of his/her membership in a protected class, to conduct and/or communications that are sufficiently severe, pervasive, or persistent as to have the purpose or effect of: creating an intimidating, hostile, or offensive environment; substantially or unreasonably interfering with an individual's work or a student's educational performance, opportunities, benefits, or well-being; or otherwise adversely affecting an individual's employment or educational opportunities.

Harassment can include unwelcome verbal, written, or physical conduct which offends, denigrates, or belittles an individual because of his/her membership in a protected class. Such conduct includes, but is not limited to: derogatory remarks, jokes, demeaning comments or behavior, slurs, mimicking, name calling, graffiti, innuendo, gestures, physical contact, stalking, threatening, bullying, extorting, or the display or circulation of written materials or pictures.

Civil Rights Compliance Officer

The District will designate one or more individuals to serve as Civil Rights Compliance Officer. The Civil Rights Compliance Officer will be responsible for coordinating the District's efforts to comply with and carry out its responsibilities regarding non-discrimination and anti-harassment, including investigations of complaints alleging discrimination, harassment, or the failure of the District to comply with its obligations under relevant non-discrimination and anti-harassment laws and regulations (e.g., the Americans with Disabilities Act, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973).

Prior to the beginning of each school year, the District shall issue an appropriate public announcement or publication which advises students, parents/guardians, employees and other relevant individuals of the District's established grievance procedures for resolving complaints of discrimination and harassment. Included in such announcement or publication will be the name, address, telephone number, and email address of the Civil Rights Compliance Officer(s).

The Civil Rights Compliance Officer(s) for the District is/are:

Assistant Superintendent
Superintendent

Investigation of Complaints and Grievances

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of discrimination and/or harassment based on any of the characteristics described above, and will promptly take appropriate action to protect individuals from further discrimination or harassment. In the event an anonymous complaint is filed, the District will respond to the extent possible.

It is essential that any individual who is aware of a possible occurrence of discrimination or harassment immediately report such occurrence. All reports will be directed or forwarded to the District's designated Civil Rights Compliance Officer(s). Such complaints are recommended to be in writing, although verbal complaints of discrimination or harassment will also be promptly investigated in accordance with applicable law and District policy and procedure. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

To the extent possible, all complaints will be treated as confidential. Disclosure may, however, be necessary to complete a thorough investigation of the charges and/or notify law enforcement officials.

If an investigation reveals that discrimination or harassment has occurred, the District will take immediate corrective action as warranted. Such action will be taken in accordance with applicable laws and regulations, as well as any and all relevant codes of conduct, District policies and administrative regulations, collective bargaining agreements, and/or third-party contracts.

Knowingly Makes False Accusations

Any employee or student who *knowingly* makes false accusations against another individual as to allegations of discrimination or harassment will face appropriate disciplinary action.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination and/or harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Where appropriate, follow-up inquiries will be made to ensure that discrimination and/or harassment has not resumed and that those involved in the investigation have not suffered retaliation.

Additional Provisions

Regulations will be developed for reporting, investigating, and remedying allegations of discrimination and/or harassment.

In order to promote familiarity with issues pertaining to discrimination and harassment in the schools, and to help reduce incidents of prohibited conduct, the District will provide appropriate information and/or training to staff and students. As may be necessary, special training will be provided for individuals involved in the investigation of discrimination and/or harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and will be posted and/or published in appropriate locations and/or school publications.

This policy should not be read to abrogate other District policies and/or regulations or the *District Code of Conduct* prohibiting other forms of unlawful discrimination, harassment, and/or inappropriate behavior within this District. It is the intention of the District that all such policies and/or regulations be read consistently to provide protection from unlawful discrimination and harassment. However, different treatment of any individual which has a legitimate, legal, and nondiscriminatory reason shall not be considered a violation of District policy.

Adopted: November 19, 2013

The District-wide and building-level school safety plans have been adopted by the School Board only after at least one (1) public hearing that provided for the participation of school personnel, parents, students, and any other interested parties. Each plan shall be reviewed by the appropriate school safety team on at least an annual basis, updated as needed by July 1 and recommended to the Board of Education for approval. These plans will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the Sidney Central School District with local and county resources in the event of such incidents or emergencies.

Each plan shall be reviewed by the appropriate school safety team on at least an annual basis, updated as needed and recommended to the Board of Education for approval. However, District-wide and building-level school safety plans shall be adopted by the School Board of Education only after at least one (1) public hearing that provides for the participation of school personnel, parents, students, and any other interested parties. Further, the Board of Education shall make the District-wide and building-level school safety plans available for public comment at least thirty (30) days prior to its adoption, provided that only a summary of each building-level emergency response plan (i.e., building-level school safety plan) shall be made available for public comment.

District-Wide School Safety Plan

District-wide school safety plan means a comprehensive, multi-hazard school safety plan that covers all school buildings of the Sidney Central School District that addresses prevention and intervention strategies, emergency response and management at the District level and has the contents as prescribed in Education Law and Commissioner's Regulations.

The District-wide school safety plan shall be developed by the District-wide school safety committee appointed by the Board of Education. The District-wide team shall include, but not be limited to, representatives of the School Board of Education, student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Building-Level School Safety Plans

Building-level school safety plan means a building-specific school emergency response plan that addresses prevention and intervention strategies, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's Regulations. As part of this plan the District will define the chain of command in a manner consistent with the National Incident Management

System (NIMS)/Incident Command System (ICS).

The building-level plan shall be developed by the building-level school safety team. The building-level school safety team means a building-specific team appointed by the Building Principal, in accordance with regulations or guidelines prescribed by the Board of Education. The building-level team shall include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel, other school personnel, community members, local law enforcement officials, local ambulance or other emergency response agencies, and any other representatives the School Board of Education deems appropriate.

If the District receives federal preparedness funds, the District requires appropriate personnel to complete the IS-700 NIMS (National Incident Management System) introductory course.

Filing/Disclosure Requirements

The Sidney Central School District shall file a copy of its comprehensive District-wide school safety plan and any amendments thereto with the Commissioner of Education no later than thirty (30) days after their adoption. A copy of each building-level school safety plan and any amendments thereto shall be filed with the Sidney Police Department, the New York State Police and the Delaware County Sheriff's Department within thirty (30) days of its adoption. Building-level emergency response plans shall be confidential and shall **not** be subject to disclosure under the Freedom of Information Law or any other provision of law.

Fire Drills

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the twelve (12) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

Bomb Threats

School Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific

procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place.

Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

Implementation

The Board of Education directs the Superintendent of Schools or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

Bus Emergency Drills

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

- a. Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;

- b. The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;
- c. Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the Sidney Central School District shall insure that all students who are transported on such school bus owned, leased or contracted for by the Sidney Central School District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

- a. Proper fastening and release of seat safety belts;
- b. Acceptable placement of seat safety belts on students;
- c. Times at which the seat safety belts should be fastened and released; and
- d. Acceptable placement of the seat safety belts when not in use.

Title: School Bus Safety Program
Code: 5750
Status: Active

Adopted: November 19, 2013

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

Use of Cell Phones and Portable Electronic Devices Prohibited

Use of portable electronic devices by a school bus driver at times the vehicle is in operation on the roadway poses a potential safety risk. All school bus drivers are prohibited from using portable electronic devices while the bus is in operation and students are on the bus.

Personal cell phones are to be placed in the "off" position when in the possession of the school bus driver while the bus is in operation. Cell phones may be used in case of emergency.

The following terms are defined as:

- a) "Portable electronic device" shall mean any mobile telephone (hand held or "hands free"), personal digital assistant (PDA), portable device with mobile data access, laptop computer, pager, broadband personal communication device, two-way messaging device, electronic game, or portable computing device.
- b) "Using" shall mean holding a portable electronic device while viewing, taking or transmitting images, playing games, or composing, sending, reading, viewing, accessing, browsing, transmitting, saving or retrieving e-mail, text messages, or other electronic data.
- c) "In operation" shall mean that the bus engine is running, whether in motion or not.

The Transportation Supervisor, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections, and will be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

Every bus driver is required to report promptly any school bus accident involving death, injury, or property damage. All accidents, regardless of damage involved, must be reported at once to the Transportation Supervisor.

Adopted: November 19, 2013

SUBJECT: USE OF SURVEILLANCE CAMERAS IN THE SCHOOL DISTRICT AND ON SCHOOL BUSES

It is the Board of Education's responsibility to ensure the safety of the District's students, staff, facilities, and property. While the Board of Education recognizes the importance of privacy, it has authorized the use of surveillance cameras on District property including in school buildings, school facilities, as well as on school buses, when necessary. These surveillance cameras will help to assist the Board in maintaining the overall safety and welfare of the District's students, staff, property, and visitors, as well as to deter theft, violence, and other criminal activities.

Further, surveillance cameras will only be placed in public or common areas, such as stairwells, hallways, cafeterias, parking lots, or playgrounds, and not in private areas such as locker rooms, bathrooms, or other areas in which individuals have a reasonable expectation of privacy. Audio recordings will not be utilized by the District officials, however, this prohibition may not preclude the use of audio recordings by law enforcement officials in accordance with their official duties or as otherwise authorized by law.

Disciplinary Proceedings

Video recordings or footage from District surveillance cameras may be used in student or employee disciplinary proceedings, as appropriate.

Signage/Notification

The District will place signage at entrances to the school campus or at major entrances into school buildings notifying students, staff, as well as any visitors of the District's use of surveillance cameras. Students and staff will also receive additional notification, as deemed appropriate by the Superintendent, regarding the use of its surveillance cameras through means such as publication in the District calendar, employee handbook, and/or the student handbook.

Maintenance of Video Recordings

Any video surveillance recording in the schools, on school buses, or on school property, on tape, CD, or digitally, will be the sole property of the District and stored in its original form and in a secure location to avoid tampering and also to ensure its confidentiality in accordance with relevant law and regulations.

In addition, to the extent that any video images create student or personnel records, the District will comply with all applicable state and federal laws related to record retention, record maintenance, and record disclosure, including the Family Educational Rights and Privacy Act ("FERPA").

Accordingly, the Board of Education delegates to the Superintendent of Schools the responsibility for assuring the implementation of a *Code of Conduct for the Maintenance of Order on School Property*, including school functions, which shall govern the conduct of students as well as teachers, other school personnel, and visitors.

School property shall mean in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus as defined in Vehicle and Traffic Law Section 142. In accordance with the Code of Conduct on School Property, areas addressing student conduct and behavior will further utilize the following strategies in promoting acceptable student behavior:

Section 7000: Students
Title: Bullying: Peer Abuse in the Schools
Code: 7552
Status: Active

Legal
Civil Service Law Section 75-B

Adopted: November 19, 2013

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the District Code of Conduct for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a. Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b. Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats);
and
- c. Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs).

Cyberbullying has the effect of:

- a. Physically, emotionally or mentally harming a student;
- b. Placing a student in reasonable fear of physical, emotional or mental harm;

- c. Placing a student in reasonable fear of damage to or loss of personal property; and
- d. Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "*Tinker* standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting Tinker v. Des Moines Indep. Sch. Dist. 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the District Code of Conduct and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any student who believes that he/she is being subjected to bullying/cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to the Building Principal. The Building Principal to whom the report is made shall investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

The Board of Education is committed to providing a safe, productive and positive learning environment within its schools. Hazing activities are demeaning, abusive and/or illegal behaviors that harm victims, and are inconsistent with the educational goals of the Sidney Central School District by negatively impacting the school environment. Hazing of a student by another student or group of students is strictly prohibited on school property; in school buildings; on school buses; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Hazing of a student refers to soliciting, encouraging, aiding, or engaging in "hazing" behavior as defined pursuant to School District policy, regulation and/or law. The Board of Education shall require the prohibition of hazing - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "*hazing among students is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate.*" Hazing behaviors include, but are not limited to, the following general categories:

- a. Humiliation: socially offensive, isolating or uncooperative behaviors.
- b. Substance abuse: abuse of tobacco, alcohol or illegal drugs.
- c. Dangerous hazing: hurtful, aggressive, destructive, and disruptive behaviors.

Incorporated within this definition are various forms of physical, emotional and/or sexual abuse which may range in severity from teasing/embarrassing activities to life threatening actions.

Even if the hazing victim participated "willingly" in the activity, or there was no "intent" by the hazer to harm or injure another individual, hazing is still hazing and against School District policy, the District Code of Conduct and may be in violation of New York State Law. However, hazing of students does not need to rise to the level of criminal activity for such conduct to be in violation of Sidney Central School District rules and subject to appropriate disciplinary sanctions. Any hazing activity, whether by an individual or a group, shall be presumed a forced activity and in violation of Board policy, regardless of the "willingness" of the student to participate.

Any student who believes that he/she is being subjected to hazing behavior, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of hazing, shall report the incident to any staff member or the Building Principal. Anonymous student complaints of hazing behavior will also be investigated by the School District. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses hazing behavior) shall investigate the complaint/incident and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of hazing. Investigations of allegations of hazing shall follow the procedures utilized for complaints of harassment within the Sidney Central School District. Allegations of hazing shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of hazing. Follow-up inquiries and/or appropriate monitoring of the alleged hazer(s) and victim(s) shall be made to ensure that hazing behavior has not resumed and that all those involved in the investigation of allegations of hazing have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the Sidney Central School District.

Knowingly Makes False Accusations

Students who *knowingly* make false accusations against another individual as to allegations of hazing may also face appropriate disciplinary action.

District Responsibility/Training

Personnel at all levels are responsible for taking corrective action to prevent hazing behavior of which they have been made aware at School District sites; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Further, as may be applicable, personnel are to report such hazing behavior to their immediate supervisor. Staff training shall be provided to raise awareness of the problem of hazing within the schools and to facilitate staff identification of, and response to, such hazing behavior among students.

Prevention and intervention techniques within the School District to help prevent hazing behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to hazers, victims and their parents to help ensure that the hazing stops.

Rules against hazing shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents. Disciplinary sanctions for violation of this policy shall be outlined in the *District Code of Conduct* and may also be incorporated in staff and student handbooks. In addition, allegations of hazing behavior may result in referral to law enforcement officials as necessary.

PROTECTIVE ACTION OPTIONS

1. Definitions of Protective Action Options

Early Dismissal means the need to return students to their home schools, home and family as rapidly as possible.

Evacuation to a safe place requires that a building's inhabitants get out and go somewhere else. Evacuation may mean only going outside, away from the building and waiting for the danger to pass. In some circumstances, however, the nature of the emergency may demand that staff and students be transported and housed temporarily in some other building (shelter).

Sheltering may be internal or external. During conditions when the roads are closed or outside travel is extremely hazardous, sheltering internal to our buildings may be necessary. For Weather related (tornado, hurricane, severe storm etc.) internal sheltering, areas within the buildings are used. These areas include rooms and halls without glass windows, doors, or skylights. Gymnasiums, cafeterias and other spaces with wide free span roofs are NOT used. When evacuation from one of our buildings is deemed appropriate, but early dismissal is not, sheltering in other buildings on campus is used.
