

Señor Gray's Lingy Challenge #1

What number is September?

Welcome to our first Lingy Challenge. Lingy Challenges help stretch your mind and look at language a little differently. If you like puzzles, you might enjoy trying this out. Our first puzzle is a pattern puzzle. Figure out the pattern, and you will be able to answer the question.

Rules and Procedures

1. Share the puzzle, but keep the answer to yourself. You might win a prize, but not if you tell everyone.
2. If you think you've solved the puzzle, write the answer on this paper and put it in the puzzle answers box in Mr. Gray's room. Be ready to explain how you arrived at the answer. Sometimes I'll check just to make sure you really understand how you got the answer.
3. Winners' names will be announced over the morning announcements.
4. One student with a winning answer will get to have a computer gaming lunch in Mr. Gray's room.

January = 73

February = 83

March = 51

April = 52

May = 31

June = 42

July = 41

August = 63

September =
