

## Señor Gray's Lingy Challenge #7

# The missing square

*Lingy Challenges* help stretch your mind and think a little differently. If you like puzzles, you might enjoy trying this out. This week's puzzle is a **pattern puzzle**. Most pattern puzzles are numeric (dealing with numbers); some are not.

### The Challenge:

Look at the grid below. Can you figure out what should go in the blank square? Patterns are only patterns when we see what they represent, when we see through the jumble of letters or numbers. If you're drawing a blank, show it to a parent, a teacher, a bus driver.

O	T	T	F	F
S	S	E	N	T
E	T	13	F	F
S	S	E	N	T
T	T	T		T

What goes here?

Why?
